WEBSITE DISCLAIMER

Effective Date: May 2023

Please read this Disclaimer carefully before using the MDT Eduverse website or any of its programs, content, or resources. By accessing or using this website, you agree to be bound by the terms stated herein.

1. Nature of MDT Eduverse — An Educational Platform

MDT Eduverse (also referred to as "Minting Desired Tycoons") is a registered educational and training platform dedicated exclusively to providing structured learning experiences in the fields of Modern Finance, Blockchain Technology, Web3, Digital Economy, Entrepreneurship, and Personal Development.

All content, programs, workshops, sessions, mentorships, and materials offered by MDT Eduverse are created and delivered solely for educational and knowledge-enrichment purposes. MDT Eduverse is an institution of learning — not a financial services firm, investment advisory, brokerage, or asset management company.

2. Educational Purpose Only — Not Financial or Investment Advice

The information, concepts, and subject matter shared through MDT Eduverse — including but not limited to topics related to finance, blockchain technology, digital economies, and wealth-building principles — are provided strictly for general awareness and academic understanding.

Nothing on this website or within any MDT Eduverse program constitutes, or should be construed as:

- Financial advice of any kind
- Investment advice or a recommendation to invest in any asset, product, or scheme
- Legal, tax, or regulatory guidance
- An endorsement or promotion of any specific financial product, service, or company
- A solicitation to buy, sell, or trade any securities, cryptocurrencies, or financial instruments

Learners and visitors are strongly encouraged to consult qualified, licensed, and SEBI-registered financial advisors, legal professionals, or relevant certified experts before making any financial, investment, or business decisions.

3. Blockchain and Technology Education — Not Crypto Promotion

MDT Eduverse includes educational content on blockchain technology, Web3, decentralized systems, smart contracts, and related technologies. This content is provided to build conceptual awareness of how these technologies work from an academic and technological perspective.

MDT Eduverse does not promote, endorse, sell, or facilitate the purchase or sale of any cryptocurrency, digital token, digital asset, or any form of investment product. Any reference to cryptocurrencies, DeFi protocols, or digital currencies within our curriculum is purely illustrative and educational in nature.

Important: Participation in MDT Eduverse programs does not imply, guarantee, or suggest that learners should invest in cryptocurrency or any digital asset. All such decisions remain solely at the individual's discretion and risk.

4. No Guarantee of Results or Earnings

MDT Eduverse is committed to delivering high-quality educational content. However, the platform makes no representation, warranty, or guarantee — express or implied — that completion of any program, course, or workshop will result in:

- Employment, job placement, or career advancement
- Business success or profitability
- Financial gain or income of any kind
- Guaranteed skill development or professional certification

Individual outcomes depend on a variety of personal factors including, but not limited to, dedication, prior knowledge, application of learning, market conditions, and individual effort. Any examples, success stories, or testimonials shared on this website reflect individual experiences and are not representative of typical outcomes.

5. Accuracy of Information

MDT Eduverse strives to ensure that all content on this website is accurate, up-to-date, and relevant at the time of publication. However, given the rapidly evolving nature of technology, finance, and regulatory environments, the platform does not warrant the completeness, accuracy, or timeliness of any content.
